MAKE YOUR OWN CHOICES

As we write this it is right at the height of the blooming season. It is too early to predict crops or to make a definite price list. We realize, however, that you now have in mind varieties you have seen in gardens and at shows that you wish to be sure of getting. Incidentally, we need funds for advertising and harvesting our crops. Therefore, we are asking you to write us giving the kinds and quantities you desire and we will make a lump quotation. We have more time to handle this business now as well as to give information and handle any other correspondence. Remember all these quotations are for cash, delivery latter part of November; also do not ask us to quote on individual items. Following is list of varieties we are growing:
